Interesting Events:

Several containers of paint were discovered leaking when a truck stopped at a weigh station. Approximately 15 gallons of paint were spilled inside the trailer and onto the asphalt at the weigh station. The responsible party hired a third party contractor to clean up the spill.

The driver of a truck hauling fertilizer ran off the road and was unable to regain control and the truck overturned. Four hundred pounds of fertilizer were spilled. The responsible party conducted the clean up.

All other events were minor transportation spills.
